

HAND MELONS

are grown by John Hand, the third generation of the Hand family to work their historic farm near Saratoga Springs, New York. Each year since the first harvest of Hand Melons in 1925, melon lovers have eagerly awaited the August day when Hand Melons are once again available.

If you haven't yet enjoyed one of these treasures, we guarantee that our Hand Melon will be the most delicious cantaloupe that you've ever tasted. We pick our melons only when nature has determined each melon is fully mature and will reach full ripeness within a few days. This ensures the sweetest possible melon. We do not pick them a week or two in advance as many grocery stores do.

As a small family farm, we strive to give you the attention you deserve, while continuing to run the farm, manage our roadside market, and raise a family. Please use this form to send us your order. If you prefer to phone your order in, you can reach us at 518-692-7502, or fax at 518-692-2376, between 9 a.m. and 5 p.m. Monday through Friday. Our goal is to speak with you when you call, but if we tending to other farm business, be assured that we will return your call in a timely manner.

Thank you!

Please call for air shipping rates

NOTE: We cannot ship melons to CA or AZ

GUARANTEE Hand Melons are guaranteed to be DELICIOUS, no questions asked, when shipped to zones 1 & 2. However, please remember that melons are a gift from nature, and as natural products sometimes "breakdown" during transit due to excessive heat or rough handling. If this occurs, please call us promptly. **We do not guarantee ground shipments outside Zone 1 or 2.**

"Hand Melons have a beautiful perfume, even before they are cut, and a superb flavor."

- JAMES BEARD

Our challenge is to continually provide our customers with a product that will satisfy. Hand melons usually begin to ripen in late July and are available to be shipped during the month of August. Each melon is individually inspected several times before it is packed into the shipping carton and every precaution is taken to ensure they arrive to you damage-free. If you receive a carton with apparent damage, **PLEASE CHECK EACH MELON**, as one damaged melon rarely ruins the whole box. Often a melon which has cracked during shipment can be eaten immediately. Excluding such a mishap, our delicious Hand Melons are a delicate gift of nature. We try our very best to ensure that these fragile fruits meet your expectations.
